

Accounting and Advisory Firms Remuneration Review

Mercer's Accounting and Advisory Firms Remuneration Review has over a 10,000 incumbent count, with the focus on the Audit, Tax and Advisory consulting roles. It provides market data from large, medium and small accounting firms, with niche roles in the middle market, covering an emergence of growing advisory roles. Access to Mercer WIN®, an online interactive tool, allows you to slice and dice data, make peer cuts, age data; highlight the firm's market position, create custom percentile calculations and combine related roles. Firms can stay up-to-date on the movement of each discipline in the market, how fast the salary moves at certain career levels and in certain locations.

Report features

The Review provides:

- Results presented annually, analysed trends and insights, highlighting hot spots. Group discussions and networking opportunities, available only to survey participants.
- Comprehensive published reports in both current market data and remuneration movement.
- Three users accounts with access to Mercer's online interactive tool or 'Mercer WIN@', where results can be customised by creating relevant market views.
- Insights into hot jobs that attract premium.
