

Quarterly Salary Review

For over 50 years, clients have relied on the Quarterly Salary Review (QSR) as a respected and trusted salary benchmarking and planning resource. Released four times a year, QSR is a one of a kind remuneration survey that captures updated data from an average of 120,000 employee records and up to 946 organisations. QSR also offers broader position coverage with two additional ways of viewing the market, as well as enhanced analysis functionality using the Mercer WIN® platform.

Report features

This easy-to-use, comprehensive remuneration benchmarking and salary planning report supports organisations with designing a competitive, cost-effective and targeted remuneration plan. The Review provides:

- Relevant and up-to-date market data with four releases per year.
- Remuneration market data for over 1,000 positions.
- Access to an analysis of salary increase trends by career stream, geographic location and job family.
- Economic, labour and wage indicators impacting pay.
- Delivered online via Mercer WIN®, allowing the flexibility to refine market data and create unlimited reports tailored to each organisations requirements.
